THE report of the department of agriculture, just issued, contains, under the head of "Frauds on Farmers," an account of the manner in which farmers throughout the country have been swindled in the sale of hulless oats. This fraud is found to have been imported from Canada in 1880, since which time it has made its way into every western state, and made local incursions southward, and is beginning to be heard of in the extreme east. The losses which bave accrued from the perpetration of this fraud have, it is claimed, exceeded \$10,000 in a single county, and prob- J. H. & W. G. Elias Armijo has returned from Lincoln county, where he was en-gaged in looking after his stock interests. He says sheep have died by thousands in that county this spring on account of the lack of water. He estimates the loss on the Pecos river at 100,000 head.—Journal.

Colorado city from Lincoln county, N. M., says that the country from Pecos to Seven Rivers is dryer than he ever saw it. No grass within eight miles of the river and many cattle are a'ready dying. He anticipates a heavy loss if the drought continues thirty days longer. Many calves are on the range and the mothers unable to reach grass and water. It is impossible for the poor cattle to make it through on this trail without a S. v. wood,

change in present prospects. The late storms have just simply wrecked the picturesque canon road, and made it impassable save only on hroseback. In some places the chan-nel of the stream has slipped forty feet to one side or the other, cutting into the side of the mountain and obstructing all vehicle traffic. Even the road in the mouth of the canon is in a wretched condition, and Mr. Barnum has great difficulty in getting to and from his coal mine.—New Mex.

Governor Stover has some small samples of free gold ore which came out of the Hell canon mines. It is out of the Hell canon mines. It is very rich and is calculated to bring things to fever heat up that way before long. The mountains in that vicinity are full of gold ore, and it is actonishing that there are not more prospectors at work there. The time will come when the persons who are able to do such work, will be sorry that they did not stake out a claim.—Albuquerque Democrat.
